XIII. DIVIDEND

Based on the company's total share capital of 2,236,276,000 shares, the board of directors recommends a final dividend of RMB0.052 per share (tax inclusive) for the year 2023, representing 20.23% of the Company's earnings per share for the year 2023, for a total dividend of RMB116,286,352.00.

The dividends of H-share shareholders will be paid in HKD at the market exchange rate of RMB against HKD published by the People's Bank of China five days prior to March 28, 2024, that is, 1 RMB is equivalent to HK\$1.1021, and the dividend of H-share shareholders will be HK \$0.0573 per share.

The Company will review and approve the 2023 final dividend distribution plan at the 2023 Annual General Meeting of Shareholders to be held on May 24, 2024.

No shareholder has told the Company to waive or agree to waive any dividend as of December 31, 2023.

MANAGEMENT DISCUSSION AND ANALYSIS

(Unless otherwise stated, all amounts are denominated in Renminbi.)

MACRO-ECONOMY AND INDUSTRY DEVELOPMENT

In 2023, facing an extremely complex international environment and arduous tasks of reform, development, and stability, the Party Central Committee with Comrade Xi Jinping at its core has led the people of all ethnic groups to withstand external pressure, overcome internal difficulties, and make arduous efforts. The prevention and control of COVID-19 has achieved a stable transition and a major decisive victory, the main targets and tasks of economic and social development have been successfully completed, high-quality development has been solidly promoted, social stability has been maintained, and solid progress has been made in building a socialist modern country.

In 2023, the pace of energy green and low-carbon transformation accelerated, and the country strengthened overall planning and policy support to maintain the rapid development of non-fossil energy, and continued to deepen the foundation of green development. According to relevant statistics from the China Electricity Council, in 2023, China's installed power generation capacity reached 370 million kilowatts, of which, newly built grid-connected solar power generation capacity amounted to 220 million kilowatts, accounting for 58.5% of the total newly-installed power generation capacity. As of the end of 2023, the country's full-caliber installed power generation capacity was 2.92 billion kilowatts, of which non-fossil energy power generation capacity was 1.57 billion kilowatts, accounting for more than 50% of the total installed capacity for the first time in 2023, reaching 53.9%. By type, hydropower installed capacity was 420 million kilowatts, of which pumped storage was 50.94 million kilowatts; nuclear power was 56.91 million kilowatts; grid-connected wind power was 440 million kilowatts, of which onshore wind power was 400 million kilowatts and offshore wind power was 37.29 million kilowatts; grid-connected solar power was 610 million kilowatts; the total installed capacity of grid-connected wind power and solar power of the country reached 1.05 billion kilowatts, representing a year-on-year increase of 38.6%, accounting for 36.0% of the total installed capacity, representing a year-on-year increase 6.4 percentage points. Thermal power installed capacity was 1.39 billion kilowatts, of which coal-fired power was 1.16 billion kilowatts, representing a year-on-year increase of 3.4%, accounting for 39.9% of the total installed power generation capacity, the first time it has dropped below 40%, representing a year-on-year decrease of 4.0 percentage points. The development of new energy storage is rapid. By the end of 2023, the cumulative installed capacity of new energy storage projects completed and put into operation nationwide reached 31.39 million kilowatts/66.87 million kilowatt-hours, with an average storage duration of 2.1 hours; the newly installed capacity in 2023 was approximately 22.60 million kilowatts/48.70 million kilowatt-hours, an increase of more than 260% over the end of 2022.

PRODUCTION AND OPERATION

In 2023, the Company had deeply studied and implemented the important speeches and instructions of General Secretary Xi Jinping, fully implemented the decision-making and deployment of the Party Central Committee and the State Council, united and led the majority of cadres and workers to forge ahead and overcome difficulties, and promoted the enterprise to embark on the fast track of high-quality development. The economic operation continued to improve, and the momentum of progress was significantly increased, with continuous improvement in development quality.

New contracts

In 2023, the value of formal contracts signed of the Company realized RMB43.565 billion, representing a year-on-year increase of 29.53%, of which RMB24.590 billion for new-type power equipment, a year-on-year increase of 44.32% (RMB13.973 billion for thermal power equipment, a year-on-year increase of 101.66%; RMB5.873 billion for hydro power equipment, a year-on-year increase of 38.81%; RMB1.982 billion for nuclear power equipment, a year-on-year decrease of 41.77%; RMB1.687 billion for steam equipment, a year-on-year decrease of 16.81%); RMB0.994 billion for green and low carbon driven equipment, a year-on-year decrease of 27.76%; RMB5.936 billion for clean and efficient industrial system, a year-on-year increase of 23.00%; RMB6.957 billion for EPC and trading, a year-on-year increase of 22.68%; and RMB5.088 billion for modern manufacturing and service industry, a year-on-year increase of 7.8%.

New-type power equipment: The coal power market continued to improve, with the value of formal contracts in the coal power industry increasing significantly; the pumped storage market maintained its rapid development, with the value of formal contracts in the hydropower industry increasing significantly.

Green and low carbon driven equipment: The marine equipment industry achieved growth in orders.

Clean and efficient industrial system: The Company's order performance in the fields of industrial petrochemicals and pumps and valves increased, with a steady increase in the value of formal contracts.

EPC and trading: The Company continued to increase its efforts in developing the overseas contracting market for projects and secured orders for a number of contracting projects in Central Asia, South Asia and other regions, resulting in an increase in the formal contract value.

Modern manufacturing and service industry: The Company actively promoted the development of the manufacturing services market by focusing on the development orientation of being an “operation and maintenance service provider”, resulting in a steady increase in the formal contract value.

Production

In order to ensure the Company’s sustainable and healthy development and scientifically prevent and control operational risks, taking into account the orders on hand, the market situation, customer demand and project progress, the Company achieved reasonable production scheduling. The output of the Company’s power generation equipment amounted to 26,930MW in 2023, up by 76.4% over the same period last year; of which 6,440MW were produced by water turbine generator units, up by 138.7% over the same period last year; and 20,490MW were produced by steam turbine generators, up by 63.0% over the same period last year. Output of steam turbines for power stations was 13,690MW, up by 35.6% over the same period last year and that of boilers for power stations was 15,160MW, up by 8.1% over the same period last year.

Scientific research and innovation

In 2023, the Company invested RMB1.584 billion in science and technology in total, with the R&D investment intensity of 5.53%, and completed 300 scientific research projects and development of 210 new products. The Company won 33 provincial and ministerial level scientific and technological awards throughout the year, including: 700m head 400MW high-speed pumped storage unit, 600–1,000MW ultra-supercritical secondary reheat boiler development and application won the China Good Design Award (Gold) granted by the Innovative Design Alliance of China and the Chinese Mechanical Engineering Society; key technologies and applications for large-scale mixed-flow units won the first prize of the Electric Power Science and Technology Award awarded by the Chinese Society of Electrical Engineering; and the Research on High Temperature Gas-Cooled Reactor Steam Generator Manufacturing Technology and Engineering Application won the Second Prize of Science and Technology Progress Award issued by the People’s Government of Hebei Province. The Company completed 331 patent licenses, including 148 invention patents.

In 2023, the Company has continuously achieved scientific and technological achievements in traditional advantageous products such as hydropower, nuclear power, gas power, thermal power, and general equipment, and has made significant breakthroughs in solar thermal power generation, new energy storage, energy saving and environmental protection. The “Million-kilowatt Hydro-generator Unit” of the Company was selected for the recommended catalogue of scientific and technological innovation achievements of central enterprises; the “Large-scale Impact-type Hydro-generator Unit” was selected for the “One-stop” application demonstration direction of the Ministry of Industry and Information Technology and the State-owned Assets Supervision and Administration Commission; the “Large-scale Fluidized Bed Coal

Gasification Waste Heat Recovery Technology and Key Equipment”, the “New High-efficiency and Flexible Coal-fired Power Generating Units” were approved as the third batch of the National Energy Administration’s projects of the first (sets) of major technological equipment in the energy field. The Company successfully signed the world’s largest single-unit capacity Zala 500MW giant impact hydroelectric unit project and the domestic largest single-unit capacity Huizhou Zhongdong 400MW variable-speed pumped storage unit, and continued to maintain the leading position in hydropower performance; the national major science and technology project “Huaneng Shidao Bay high-temperature gas-cooled reactor nuclear power plant demonstration project”, in which the Company participated in construction has been put into commercial operation, marking that China has reached the world’s leading level in the field of fourth-generation nuclear power technology; the Company successfully signed contracts for solar thermal power projects such as Hengji Neng Mai Guazhou, Qinghai-Henan Direct Current, and Xinhua Bozhou (恒基能邁瓜州、青豫直流、新華博州), achieving breakthroughs in key core equipment such as tower heat absorber systems, steam generators, and molten salt tanks; successfully signed the air turbine equipment contract for the world’s largest 60MW/600MWh liquid compressed air storage demonstration project in Golmud, Qinghai, realizing a new breakthrough in the field of compressed air storage.

Capital expenditure and significant investments held

In 2023, the Company injected a total of capital expenditures worth RMB1.501 billion for major construction and technological transformation projects. The major projects include:

Nuclear power infrastructure enhancement project, pumped storage capacity enhancement project and state-level power generation equipment research centre R&D base construction project. The construction of all the projects is progressing steadily.

In 2024, the Company intends to commit an investment of RMB2.563 billion in key construction and technological transformation projects, mainly for the technical measures and technological transformation projects, nuclear power infrastructure enhancement project, pumped storage capacity enhancement project, state-level power generation equipment research centre R&D base construction project and the construction project of digitization workshops of subsidiaries.

MAJOR ACQUISITIONS AND SALES OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES

On 18 July 2023, the Company entered into the Asset Purchase Agreement with Jiamusi Electric, pursuant to which the Company has conditionally agreed to sell and Jiamusi Electric has conditionally agreed to purchase 51% of the equity interest in Power Equipment Company. On 28 November 2023, all the conditions precedent of the disposal under the Asset Purchase Agreement have been satisfied and Power Equipment Company ceased to be a subsidiary of the Company. Please refer to the announcements of the Company dated 18 July 2023 and 8 November 2023 for details.

MAJOR FINANCIAL INDEXES

Profit

In 2023, net profit attributable to the owner of the parent company realized by the Company registered RMB574.76 million, representing an increase of 476.12 million over the same period last year; earnings per share were RMB0.26. The increase in the Company's profit was mainly due to the positive results achieved by the Company by vigorously developing the market and the significant increase in revenue as compared to the corresponding period of the previous year. Meanwhile, the transfer of 51% equity interest in Harbin Electric Power Equipment Company Limited by the Company resulted in certain investment income.

Operating revenue

In 2023, the Company recorded an operating revenue of RMB28,840.86 million, representing an increase of 17.03% over the same period last year. Of which RMB15,746.85 million for new-type power equipment, a year-on-year increase of 34.06% (RMB8,013.58 million for thermal power equipment, a year-on-year increase of 17.79%; RMB3,443.63 million for hydropower equipment, a year-on-year increase of 25.09%; RMB2,489.88 million for nuclear power equipment, a year-on-year increase of 95.18%; RMB1,143.66 million for steam equipment, a year-on-year increase of 86.35%); RMB703.22 million for green and low carbon driven equipment, a year-on-year decrease of 42.24%; RMB5,905.26 million for clean and efficient industrial system, a year-on-year increase of 14.50%; RMB3,792.97 million for EPC and trading, a year-on-year decrease of 20.52%; and RMB2,202.38 million for modern manufacturing and service industry, a year-on-year decrease of 30.53%.

In 2023, the Company recorded a revenue from export of RMB4,662.18 million (or 16.17% of the total operating revenue), a decrease of RMB9.13 million over the same period of the previous year. The export of the Company was dominated by Asia, North America and Europe, in which export to Asia amounting to RMB3,485.07 million, export to North America amounting to RMB882.94 million while export to Europe amounting to RMB204.68 million.

Cost

In 2023, the operating costs of the Company amounted to RMB25,721.08 million, representing an increase of 18.09% as compared with the corresponding period of last year. The increase in operating costs was mainly due to the substantial increase in the output of the Company's power generation equipment and power station steam turbines during the period.

Gross profit and gross profit margin

In 2023, the Company realized a gross profit from operating business of RMB3,119.78 million, representing a year-on-year increase of RMB256.35 million, and a gross profit margin of 10.82%, representing a year-on-year decrease of 0.8 percentage point. The gross profit of new-type power equipment was RMB2,018.84 million, with a gross profit margin of 12.82%, representing a year-on-year decrease of 1.35 percentage points (of which, gross profit of thermal power equipment was RMB765.14 million, with a gross profit margin of 9.55%, representing a year-on-year decrease of 3.91 percentage points; the gross profit of hydropower equipment was RMB444.18 million, with a gross profit margin of 12.90%, representing a year-on-year decrease of 3.42 percentage points; the gross profit of nuclear power equipment was RMB671.72 million, with a gross profit margin of 26.98%, representing a year-on-year increase of 0.18 percentage point; the gross profit of steam equipment was RMB61.39 million, with a gross profit margin of 5.37%, representing a year-on-year increase of 0.66%); the gross profit of green and low carbon driven equipment was RMB42.55 million, with a gross profit margin of 6.05%, representing a year-on-year increase of 9.55 percentage points; the gross profit of clean and efficient industrial system was RMB192.49 million, with a gross profit margin of 3.26%, representing a year-on-year increase of 1.97 percentage points; the gross profit of EPC and trading was RMB162.02 million, with a gross profit margin of 4.27%, representing a year-on-year increase of 0.49 percentage point. The gross profit of modern manufacturing and service industry was RMB770.89 million, with a gross profit margin of 35%, representing a year-on-year increase of 3.23 percentage points. The year-on-year decrease in the overall gross profit margin was mainly due to the decrease in the gross profit margins of coal and hydropower products due to the difference in the structure of the products scheduled for production between years and the impact of the lower prices of the products completed during the period.

Expenses for the Period

In 2023, the Company incurred expenses of RMB3,481.48 million in the period, an increase of RMB700.50 million or 25.19% year on year. Firstly, the accumulated administrative expenses amounted to RMB1,561.03 million, an increase of RMB265.71 million year on year, mainly due the increase in employees' salaries and annual performance-based compensation, as well as the increase in various operating expenses as a result of the growth in the Company's scale of operations; secondly, the accumulated selling expenses amounted to RMB622.17 million, a decrease of RMB1.74 million year on year; thirdly, the accumulated finance expenses amounted to RMB299.65 million, an increase of RMB164.54 million year on year, mainly due to the exchange loss arising from the forward exchange settlement in 2023; fourthly, the accumulated research and development expenses amounted to RMB998.63 million, an increase of RMB271.98 million year on year, with the strength of investment in research and development expenditure maintaining at a higher level.

Funding source and borrowing status

The Company financed its operation and development with four major funding sources, namely shareholder's funds, trade receivables from customers, bank borrowings and state-funded entrusted loans. The Company arranges borrowings based on each specific project. DIVIDEND

Based on the Company's total share capital of 2,236,276,000 shares, the board of directors recommends a final dividend of RMB0.052 per share (tax inclusive) for the year 2023, representing 20.23% of the Company's earnings per share for the year 2023, for a total dividend of RMB116,286,352.00.

The dividends of H-share shareholders will be paid in HKD at the market exchange rate of RMB against HKD published by the People's Bank of China five days prior to 28 March 2024, that is, 1 RMB is equivalent to HK\$1.1021, and the dividend of H-share shareholders will be HK\$0.0573 per share.

The Company will review and approve the 2023 final dividend distribution plan at the 2023 Annual General Meeting of Shareholders to be held on 24 May 2024.

No shareholder has told the Company to waive or agree to waive any dividend as of 31 December 2023.

CLOSURE OF REGISTER FOR THE PURPOSE OF DIVIDEND PAYMENT

The final dividend for the year of 2023 of the Company will be distributed on 24 July 2024, and the register of members of the Company will be closed from 17 June 2024 to 21 June 2024 (both dates inclusive). Final dividends for the year of 2023 of the Company will be distributed to shareholders whose names appear in the register of members of the Company on 17 June 2024.

In order to be qualified for the final dividends for 2023, all duly completed transfers of shares together with the relevant share certificates must be lodged with Hong Kong Registrars Limited, the Company's share registrar in Hong Kong, at Shops 1712–1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wan Chai, Hong Kong (for the holders of the H Shares only) or the Company's principal place of business in the PRC at 1399 Chuangxinyi Road, Songbei District, Harbin, Heilongjiang Province, the PRC (for the holders of the Domestic Shares only) not later than 4:30 p.m. on 14 June 2024.

DIVIDEND TAX

Pursuant to the Individual Income Tax Law of the People's Republic of China (《中華人民共和國個人所得稅法》), the Implementation Regulations of the Individual Income Tax Law of the People's Republic of China (《中華人民共和國個人所得稅法實施條例》) and other relevant requirement, the Company will withhold and pay the individual income tax in respect of the dividend (bonus) received by individual shareholders of H shares from the Company. Individual shareholders of H shares of the Company may be entitled to certain tax preferential treatments pursuant to the tax treaties between the PRC and the countries in which the individual shareholders of H shares are domiciled and the tax arrangements between Mainland China and Hong Kong (Macau). The Company will determine the residence of the individual shareholders of H shares based on the registered address as recorded in the register of shareholders on the book closure date. The specific arrangement will be as follows:

SHARE ISSUANCE

On 28 December 2022, the Company entered into the Domestic Share Subscription Agreement with Harbin Electric Corporation, the controlling shareholder, pursuant to which the Company agreed to issue and the controlling shareholder agreed to subscribe in cash for new Domestic Shares at a total subscription price of approximately RMB1.7 billion (the “**Issuance**”). The Company received the share registration certificate dated 10 October 2023 issued by China Securities Depository and Clearing Corporation Limited in respect of the new Domestic Shares under the Domestic Share Subscription on 13 October 2023. The Domestic Share Subscription was completed. Details of the issuance of shares are set out below:

Reasons for issue

In the strategic context of promoting green and low-carbon transformation and development in the PRC, the proceeds from the issue of new Domestic Shares and the Domestic Share Subscription provide financial support for the Company’s reform, transformation and sustainable development, which is conducive to the Company’s stimulation of the momentum of business development and steady introduction of new strategies, hence enabling the Company to create greater value for the Shareholders as a whole.

Type of issue

The Issuance has adopted private placement and the issued shares are Domestic Shares.

Numbers and total nominal value

A total of 529,753,000 new Domestic Shares have been issued. The par value of each share is RMB1.

Issue price

The final subscription price is HK\$3.60 per new Domestic Share.

The net price of each share certificate

The net proceeds from the Domestic Share Subscription amounted to approximately RMB1,697 million, with a net price of approximately RMB3.20 of each share certificate.

Description of subscriber

The Subscriber is the controlling shareholder of the Company, and is the pioneer in establishing the largest research and manufacturing base for power generating equipment, marine engines, power driven equipment and export base for complete set of equipment in the PRC. Its ultimate beneficial owner is the State-owned Assets Supervision and Administration Commission of the State Council of the PRC.

Market price of the securities on the date of issue

The price of the Company's securities on 13 October 2023, i.e. the date of the announcement of the completion of the issuance of the new Domestic Shares under the specific mandate, was HK\$2.39 per share.

Use of proceeds

The net proceeds from the Domestic Share Subscription were used for replenishing the general working capital of the Group to improve the gearing ratio and capital structure, and reduce finance costs and financial risks. From 2023 to 2025, the Company intends to use net proceeds of approximately RMB500 million per annum as liquidity for the Group's daily operations in such areas. In addition, given the decrease in the Company's gearing ratio (i.e. total assets divided by total liabilities) in recent years, the remaining net proceeds of approximately RMB197 million are intended to be used for ordinary administrative expenses and repayment of borrowings.
